

Welcome to Vaitoudden – The right location for professional vehicle testing and more

EXPERIENCE THE ALL-AROUND PACKAGE FOR YOUR WINTER TESTING

The Bosch test center in Vaitoudden in the north of Sweden offers optimal conditions for efficient winter testing. The test center has an ideal atmosphere for events, in front of a nordic landscape. You will receive professional driver training on ice and snow on our challenging tracks.

PUT VEHICLES THROUGH AN UNFORGIVING TEST

Test and develop your vehicles, systems and functions in everyday situations under consistent conditions. Diverse courses and tracks are available on both land and a frozen lake.

EFFICIENT PROCESSES AND PERFECT EQUIPMENT

Leave the preparation of your vehicle and the vehicle equipment to our qualified workshop service. Modern measuring and communication technology, as well as heated garages – also for hybrid and electric vehicles – are on site.

CREATE UNFORGETTABLE EVENTS

The winter backdrop of northern Sweden offers a very special ambiance for unforgettable events, such as vehicle presentations, conferences or cozy get-togethers at the end of a successful day of testing.

HAVE ALL YOUR REQUIREMENTS CATERED FOR

Bosch supports all your plans with a complete service offer, relieving you of many organizational issues and ensuring that you can concentrate on your own tasks during your visit. We offer our service on a daily basis from 8 a.m. until 10 p.m.

Our service includes:

- ▶ Travel organization and flight transfers
- ▶ Car rental
- ▶ Provision of accommodation (hotels, log cabins and private houses)
- ▶ Planning and organization of events and customer presentations
- ▶ Catering
- ▶ Workshop, measuring technology and vehicle service
- ▶ Professional driver training
- ▶ Assistance with loading and unloading freight

A special ambiance for your event: An overview of our premises

Always on the right track: Overview of Vaitoudden

more than

45 years

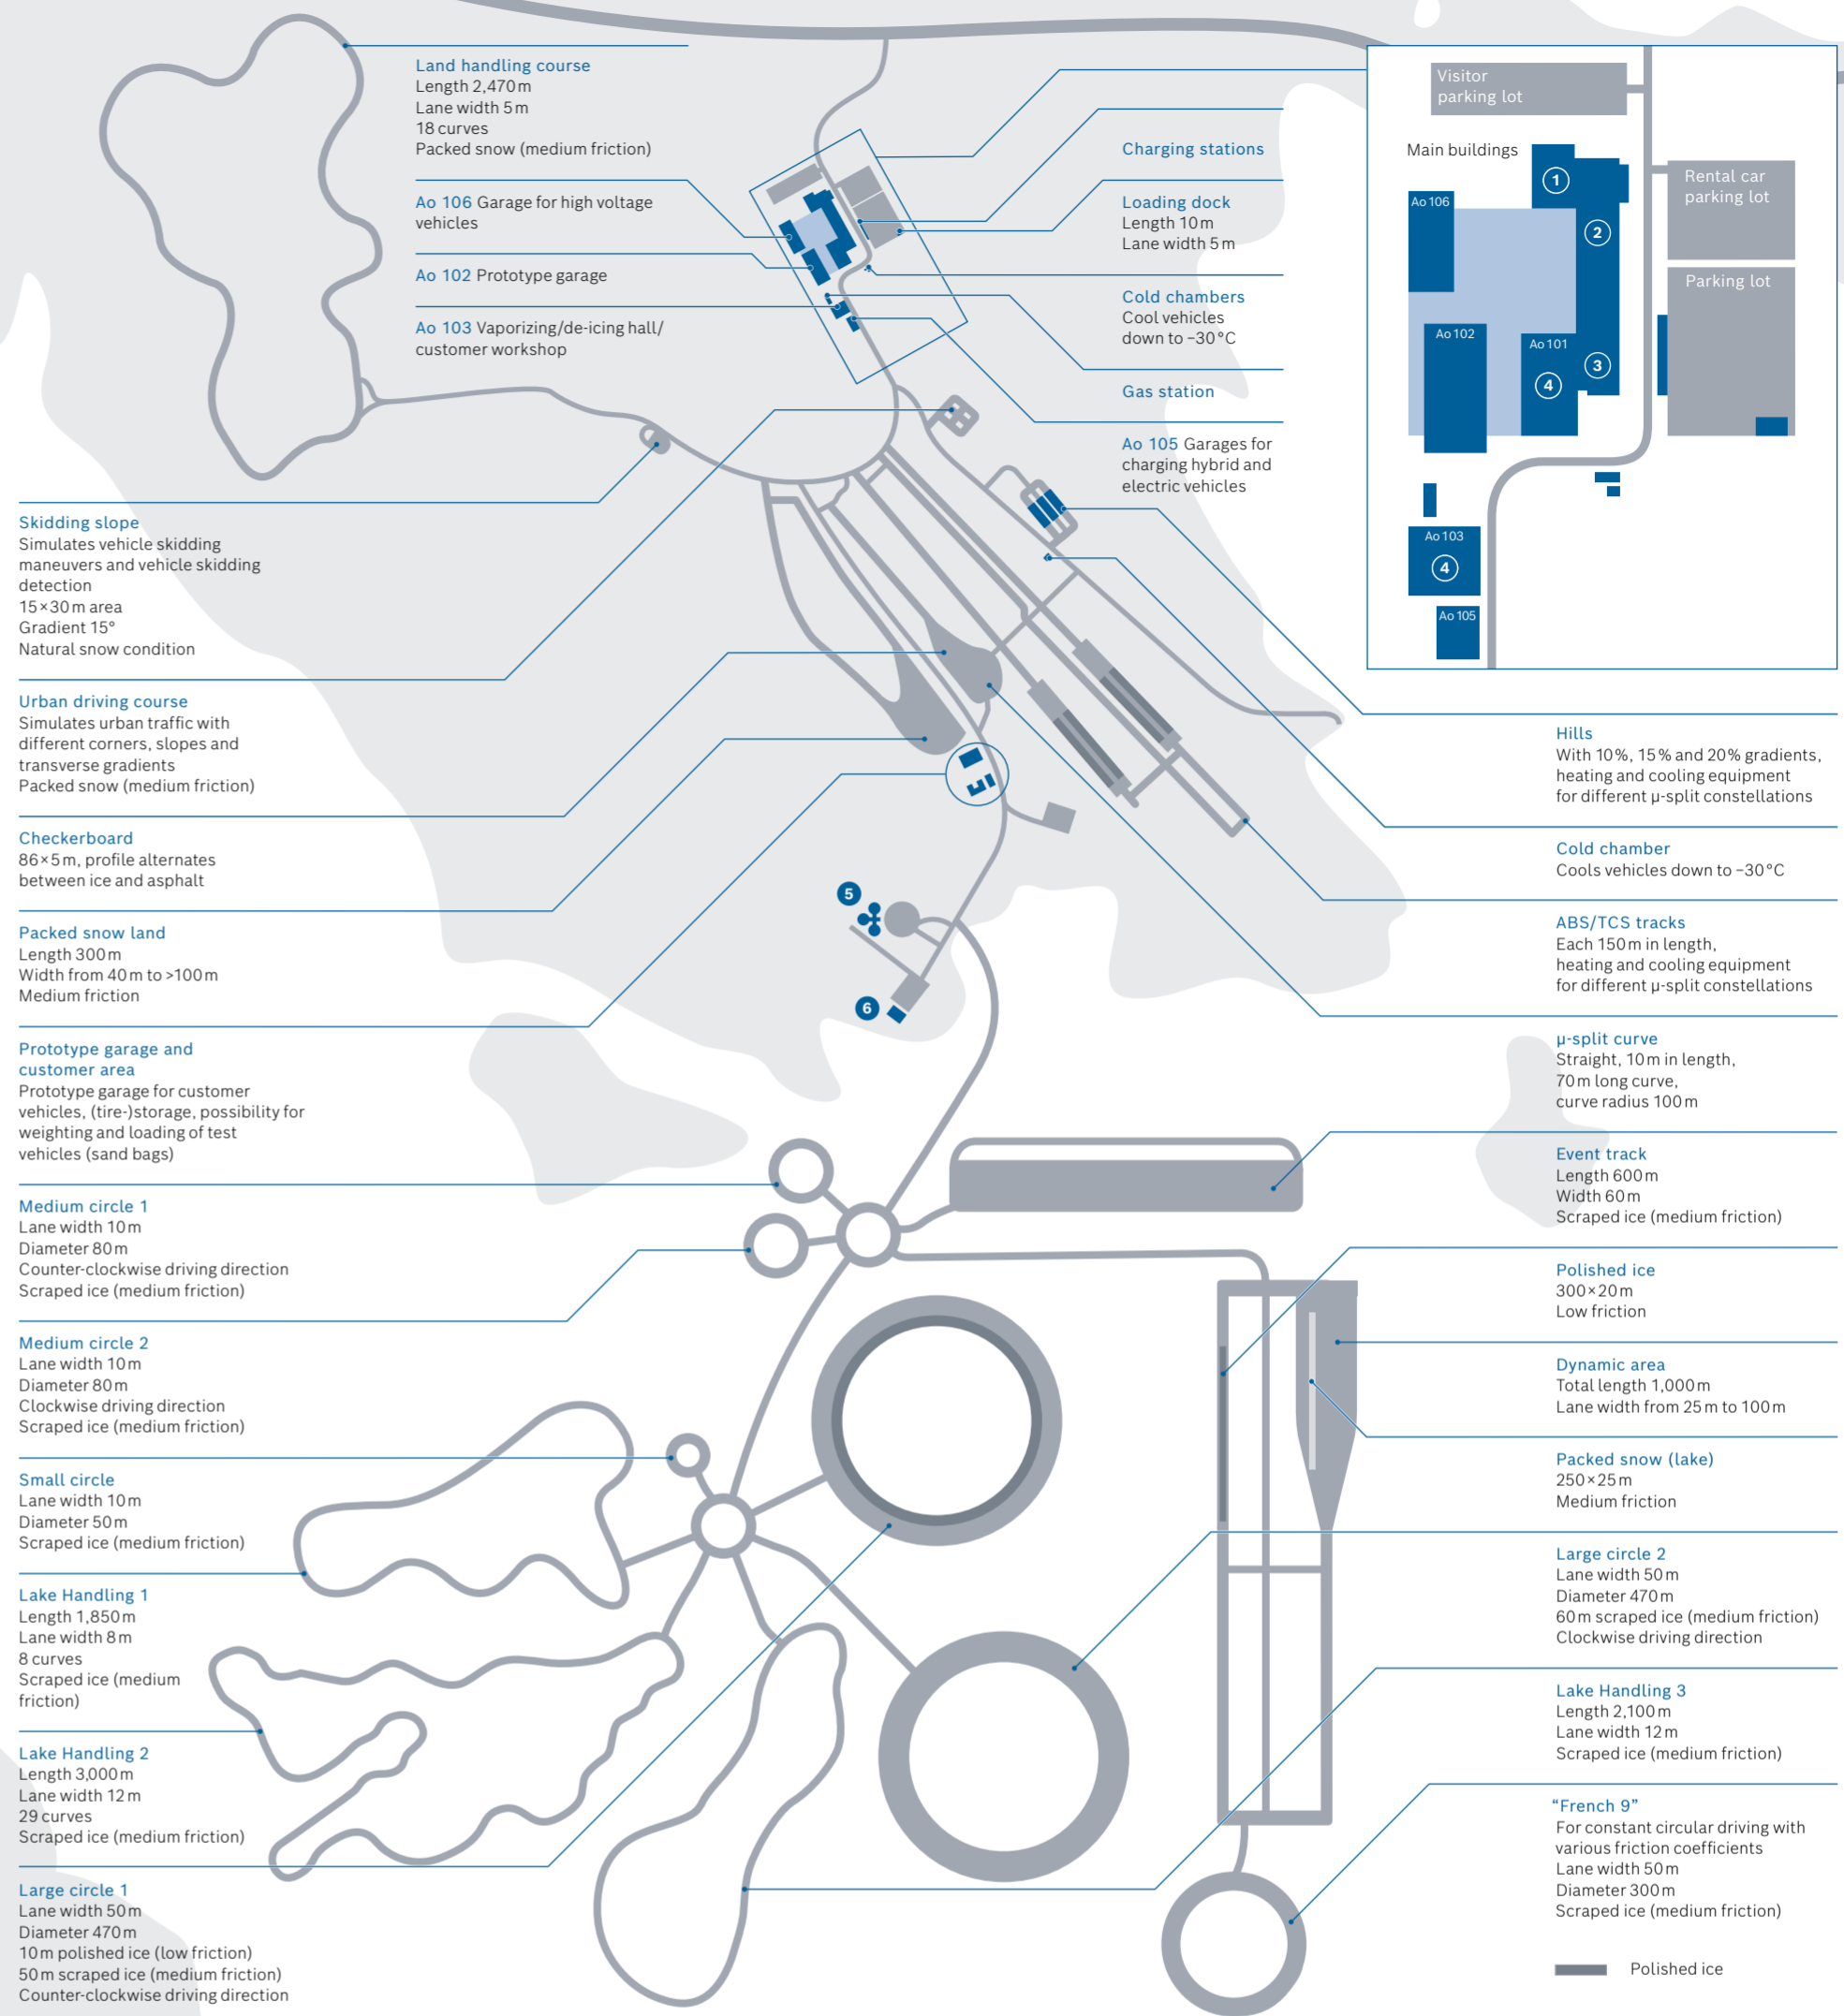

of testing experience has been gathered by Bosch in northern Sweden. During this period, major safety innovations such as ABS and ESP® were developed further to series production under the toughest conditions.

50

exciting events take place at the winter test center each season, including numerous customer and product presentations and as well as marketing events.

32 km

of internal road networks, including track modules, on which the safety and comfort of systems and vehicles are tested and optimized under the most extreme conditions.

SAFETY IS PARAMOUNT

The Vaitoudden winter test center guarantees a high level of safety. To ensure your safety while you test and optimize, we have a comprehensive safety program with many features, including our own first aid service with rescue vehicle and professional first aid team. The safety features also include large crash zones, separate return lanes and a vehicle rescue service.

ALWAYS PERFECTLY PREPARED

Specialists continuously ensure that the surfaces of our test tracks are always in the best possible condition.

YOUR SPECIAL REQUESTS ARE ALWAYS WELCOME

We are delighted to offer you additional sections on the frozen lake to suit your individual requirements, prior to the start of the season.

ALWAYS TRACEABLE ON THE TEST CENTER AREA

The Vaitoudden test center offers a state of the art proving ground management system which includes essential GPS based safety functions.
